

Dear FCC:

I want to register my objection to the National Association of Broadcasters' petition 04-160. I am a dedicated customer of XM satellite radio and plan to continue to be one for many years to come.

I choose to pay money for satellite radio because what I am able to get for free in the non-satellite radio market is not worth what they're charging - \$0! Every local market is controlled by Clear Channel, and if it's even possible, they may be a more evil empire than the Yankees!

If my memory from 8th grade American history is correct, the First Amendment to our Constitution should prohibit the NAB, or the FCC, or Congress from silencing the free speech rights of satellite radio. It's not like they are shouting "FIRE" in a crowded theater, guys. They are simply providing customers with a better product - so much better, that we will pay money for it! Ain't capitalism grand?!

Please back off this and focus on more important issues.

Respectfully,

Kimberly Vaughn
